

GUIDELINES

*For the well-being of people,
animals, and plants*

Feel free to observe and talk to the animals, but please refrain from petting and feeding them for both the animals' and your own safety.

When interacting with the animals, it's best to remain calm as it helps keep the animals calm too.

You're welcome to barbecue in the designated areas (refer to the orientation map), but all other open fires are strictly prohibited for the sake of the animals and the environment.

Smoking is not allowed on the entire premises, considering the welfare of the animals, children, and the environment.

Help keep the farm clean and tidy by disposing of trash in the designated bins.

If you bring dogs along, they must be kept on a leash.

Please respect and stay outside fenced areas and doors marked with "staff."

Show consideration for supervisors and those undergoing work training at the farm. They are primarily here to take care of the animals, crops, and the farm between 8 am and 4 pm.

[Learn more about the green rehabilitation program at Vårviks Gård.](#)

During the summer months, the farm is staffed with hosts who are there for you as a visitor and organize activities.
