

Let them grow.
Arouse curiosity.

Encouraging children just to be children, letting them test, discover and ask questions. This is an art in itself, which requires knowledge, experience and the right approach.

Each year we welcome around 550 new children to City of Trollhättan's preschool activities for children aged 1-5 years. Here all children are given the opportunity to grow and feel that they are fantastic. Just as they are. Welcome!
