

Information to parents and guardians

This letter is addressed to all parents or guardians of children at Kronan school or day recreation centre. The letter has been translated into different languages, but the content is the same, whatever the language.

On Thursday 22 October a terrible and tragic event occurred at Kronan. Children, pupils and staff suffered in different ways, and the things that happened will live in our memories for a very long time. Despite what occurred, we who can must go on, and everyday life will help us do this. That is why we are now welcoming you back to Kronan, when the school opens again on Monday, 2 November.

Ever since Thursday's events, teachers and other staff at Kronan and the whole city of Trollhättan have been working, in close cooperation with the police, to prepare for the day when Kronan opens again. We can assure you that we are doing everything within our power to create confidence and safety for the children and pupils, and hope that you as parents and guardians will also be able to feel confident that your child will be well cared for.

To ensure a safe return to school we have taken the following measures. These will apply until further notice.

- Doors and entrances into Kronan will be guarded. During lessons doors will be locked..
- Guards and school staff will be moving around in and outside Kronan's premises to give greater security.
- All children and pupils who need it will be offered help and support by teachers, school welfare officers, psychologists and other personnel from school health.

As a further measure to increase calm and security for children and pupils Kronan will open only to children, pupils and authorized staff. Parents and guardians are welcome at Kronan's youth recreation centre where there will also be staff on hand to offer discussion and support.
